This annual report has been certified by the Forest Stewardship Council as an example of environmentally responsible forestry print production:

- From the forest, to the paper mill and printer, each step of this annual report's production is certified according to FSC standards.
- The paper material, Eco-Frontier, is an environmentally friendly paper that is FSC Certified, with the added endorsement of the Singapore Green Labelling Scheme (SGLS). Comprising 51% recycled and 49% virgin pulp, this paper is produced using steam and electrical energy, effectively lowering the level of emissions emitted during its manufacture.
- The paper's local distributor, RJ Paper, is a recipient of the National Environment Agency's Green Leaf Award, and is FSC Certified; whilst the printer for this report, AlsoDominie Press, is similarly FSC Certified.

Think *Ahead.*

Staying ahead means thinking ahead. Spotting trends, anticipating needs, creating new uses for technology. With our innovative ideas and inventions, ST Engineering leads the pack. The thinking never stops, even in challenging times. Learning from the past, we make ourselves smarter and stronger for the future. And by getting people – partners, stakeholders, employees – to think with us, we build the kind of synergy that turns challenges into opportunities. We think, therefore we are.
