

SAFE LANDING ON THE CLOUD

As Enterprise moves to the Cloud:

A lack of standardised compliance postures between different business units hosting multiple apps

Adherence to a correct set of compliance policies

Differences in interpretations of compliance practices and policies

Additional overheads to maintain compliance postures

Resources strain to fulfil compliance policies.

Together with our **AGIL™ Cloud Managed Landing Zone:**

Cost
Save up to 10% on operational costs through Landing Zone Automation

Compliance
Consistency in governance, risk and security posture

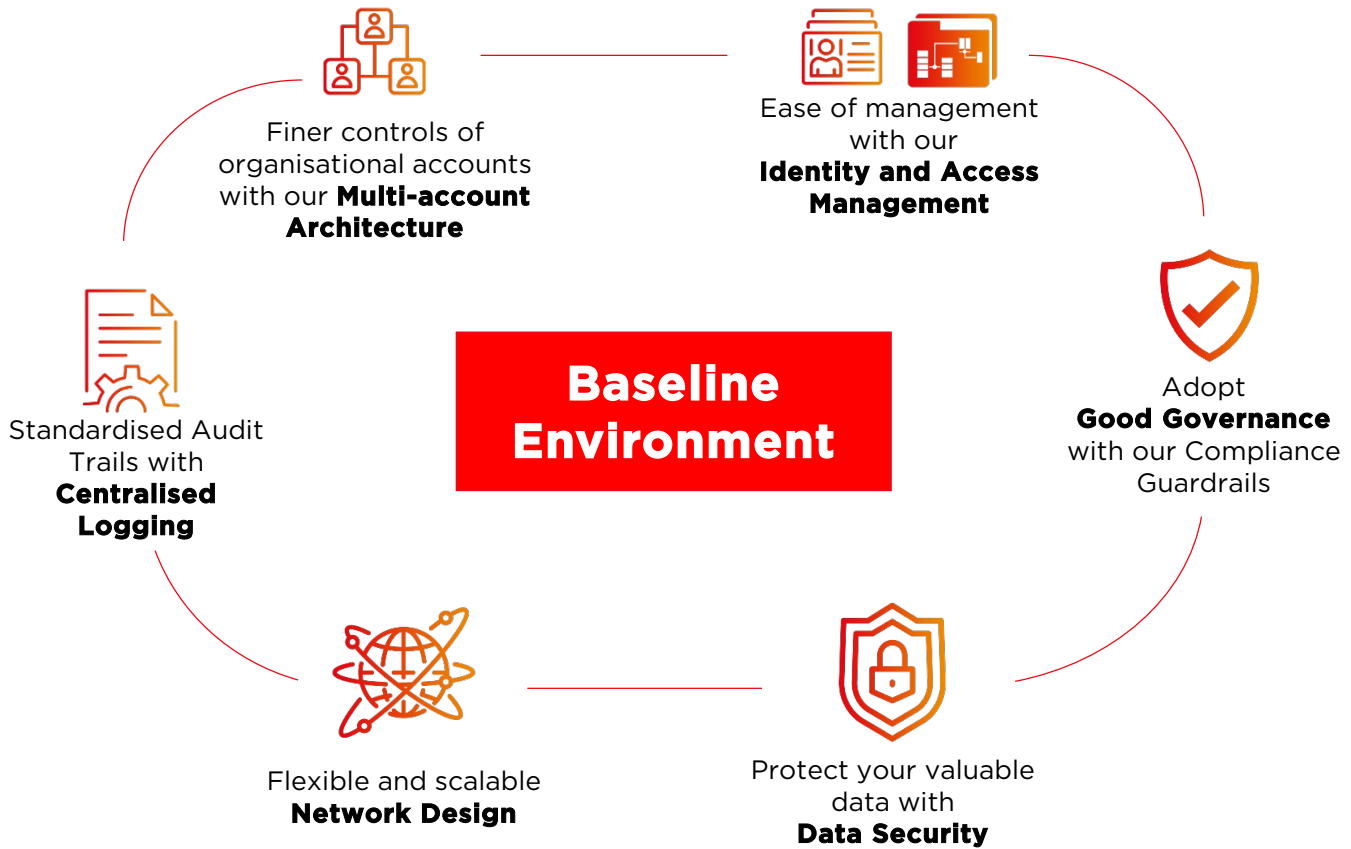

Convenience
Seamless onboarding onto Commercial Cloud

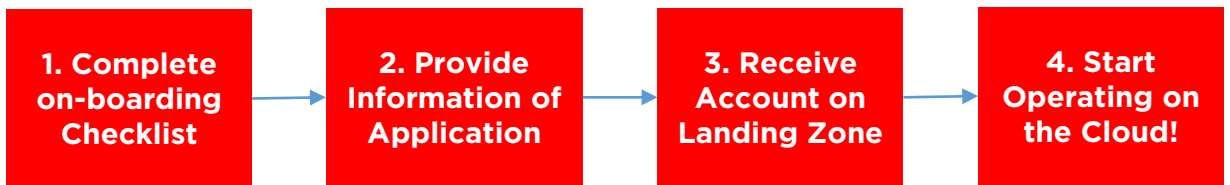

Competitiveness
Agility, Scalability and Speed to Market

Get started with a Baseline Environment

The Landing Zone provides businesses with a **ready-made platform, action steps and comprehensive guides** for on-boarding to the Cloud.

4 simple steps to Landing Zone on-boarding:

Together with the **AGIL™ Cloud Management Platform** you can have a unified view across your cloud landscape.
