

News Release

Annex A

AIR+ KIDS PRODUCT FACTSHEET

1) AIR+ N95 Kids Mask - Essential Protection

- Proven protection: Provides N95-class protection against the haze, PM2.5 particulate matter, bacteria and viruses.
- Proven fit for little faces: 3D True-fit Mask Shape is engineered to fit snugly and securely on smaller faces, delivering effective protection.
- Innovative Flexi-Strap ear loops: Wide and stretchable ear loops minimise pressure on little ears while the innovative tear-to-adjust feature allows for a more precise fit to different facial profiles, providing flexible comfort and ease of use.
- Quick exhalation release: Ultra-sensitive to the shallow breathing patterns of young children, the Quick-Release Valve allows trapped exhalation to exit the mask swiftly and easily for better air circulation.
- Superior breathability: Advanced filtration material provides better breathability.
- Soft and comfortable: Plush, latex-free fabric is soft and gentle on delicate faces.

2) AIR+ Nano Fan - Breathable Comfort

- Enhanced comfort: It removes trapped heat, moisture and carbon dioxide from within the mask, reducing the dangers of breathing in recirculated air.
- Breathe fresh air: Active ventilation allows more fresh air circulation for greater breathability.
- Ultra lightweight: Weighing just 13 grams, the Nano Fan adds almost no weight when attached to the AIR+ N95 Kids Mask.
- Whisper-quiet operation: Switched on, the Nano Fan operates at only 45 decibels, the equivalent of a soft whisper*.
- Durable and reusable: Tumble-tested to withstand accidental drops and rough handling, the Nano Fan provides 2.5 hours' runtime per charge via micro USB and 1.5 hours to fully charge.

**According to the Occupational Safety and Health Administration (OSHA) Decibel Scale.*
