Maritime Security & Auditor Courses

## ISPS AUDITOR COURSE

**AIM**

The ISPS Auditor Course, combining the ISPS familiarisation and security audit elements, is designed for those interested in understanding and performing Internal Audits of security management systems based on the International Ship and Port Facility Security (ISPS) Code.

**OBJECTIVE OF COURSE**

The ISPS Auditor Course meets the requirements of the International Register of Certificated Auditors (IRCA) and Procedure 25 of the International Association of Classification Society. This Course is of value to those who are involved in implementing the Ship Security Plan, in approving and auditing of security management system and those whose duties involve matters of international maritime security and who need to understand and/or participate in the security audit process.

**COVERAGE OF ISPS AUDITOR COURSE**

The ISPS Auditor Course covers the following topics:

- Requirements of the ISPS Code for Shipping Companies, Vessels, and Port Facilities.
- Understand the applicable ship security criteria
- Gain knowledge in current maritime security practices
- Understanding the necessary interaction between ships and ports interfaces.
- Understanding of auditing requirements of the ISPS Code.
- Understanding requirement of ship security plan approval and of ISSC certification process.
- Hands on experience on how to plan, schedule and conduct an audit for compliance with the ISPS Code.

**DURATION**: 2 Days

**COURSE FEE**: S$321.00 (Inclusive of 7% GST)
