

1Q2021 Market Updates

12 May 2021

Disclaimer

The forward-looking statements in this presentation reflect the Company's current intentions, plans, expectations, assumptions and beliefs about future events. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions especially given the evolving COVID-19 situation and its impact globally. Representative examples of these factors include (without limitation) travel and border restrictions, governmental orders on business closures, lock-down and movement restrictions, quarantines, disruption to global supply chains, general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from other companies and venues for the sale/distribution of goods and services, shifts in customer demands, customers and partners, changes in operating expenses, including employee wages, benefits and training, and governmental and public policy changes, as well as natural disasters which may negatively impact business activities of the ST Engineering Group.

You are cautioned not to place undue reliance on these forward-looking statements, which are based on the current view of management on future events.

Key Discussion Points

1. Group Highlights

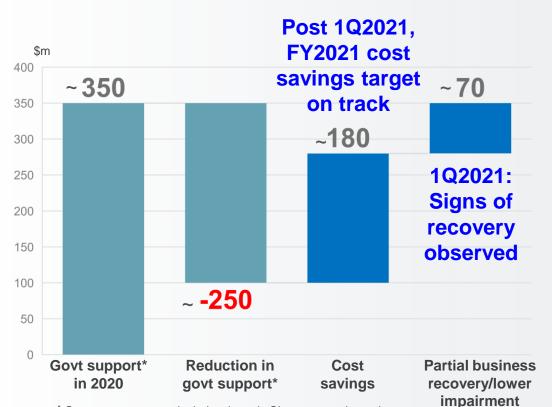

- Cost savings target
- 1Q2021 contract wins
- 1Q2021 order book

2. Business Updates

Commercial Aerospace

3. Urban Solutions Overview

- Cost savings and productivity initiatives tracking well
- Signs of business recovery observed for commercial businesses, albeit from a low base
- Commercial Aerospace subdued as expected

^{*} Government support includes those in Singapore and certain other countries where we have locally incorporated businesses

| Total | \$1,554m | |

ST Engineering

Order book remains robust

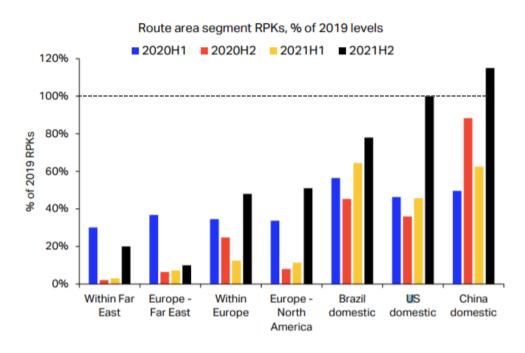

- Order book level higher than pre-COVID, contributed by all Business Areas
- \$4.6b expected to be delivered in the remaining months of 2021

Domestic travel (narrowbody) and air cargo (freighters) leading recovery

- Maintain focus on narrowbody MRO works
- Expect airframe MRO to lead recovery from higher freighter volume; engine and component MRO remain subdued
- Leverage international network of facilities

Our manufacturing to keep pace with OEM production rates

| Monthly Rate | A320 | A330 | A350 |
|--------------|--------------------------|------|------|
| Pre-Crisis | 60 | 3.25 | 10 |
| 2H2020 | 40 | 2 | 5 |
| 2021 Update | 43 in 3Q21 45 in 4Q21 | 2 | 5 |

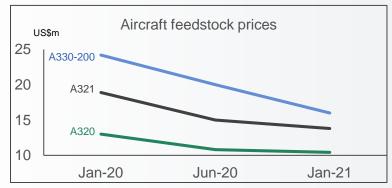

Increase in nacelle and floor panel production as demand picks up

Business updates: Commercial Aerospace

Strong demand for dedicated freighters

Source: IATA, Apr 2021

Source: Ishka Transaction Situation Report, Jun 2020 and Jan 2021

- Set up a new JV with Temasek to capture growing demand for air cargo and dedicated freighters
- Target to build a portfolio valued at about US\$600m (S\$800m)
- Aircraft feedstock available at prices 20%-34% lower y-o-y
- Value-adding through asset management, MRO and PTF solutions
- Intend to securitise in mid- to long-term to unlock capital
